SUBARU IMPORT POLSKA Sp. z o.o - exclusive Polish importer of Subaru cars, has signed a contract to implement DNA PROGRAM (DataDotDNA VIN product) throughout their entire range of cars commencing March 2006.

Speaking today **Mr Witold Rogalski** of Subaru Import Polska said "We take care of our customers seriously and the worldwide success of DataDotDNA microdots in deterring car theft has lead us to the decision to give our customers additional peace of mind by including this proven anti theft system on all of our cars from March of this year."

Also speaking today **Mr Krzysztof Hołowczyc (European Rally Champion)** of DNA Program said "I am delighted to enter into a supply agreement with Subaru in Poland and I believe that their decision to mark all cars signals the start of a new era of attack on car theft in Poland"

Subaru Import Polska Sp. z o o is the first importer in Europe to adopt across the board marking of their vehicles with DataDotDNA.
